Re: LightSquared Subsidiary, LLC  
Ex Parte Communication. IB Docket No. 11-109  
IBSF File No. SAT-MOD-20101118-00239

Dear Ms. Dortch,

As a user of high-precision GPS, I strongly **oppose** LightSquared's request (which ignores the recent independent test results) to affirm its license and its request to go forward with its plan. Please consider the effects of their efforts which have proven to cause interference in the majority of GPS receivers. This will prove to be disastrous the many who rely on precision GPS, from those in the GPS industry, agriculture, utilities, aviation, mapping, and will affect all aspects of government from federal to local. Please carefully consider the test results.

Respectfully,

Jodi Flory, GISP
